### **Classical Mechanics - Marion, Thornton | Momentum**

Determinism is the philosophical theory that all events, including moral choices, are completely determined by previously existing causes. Determinism is at times understood to preclude free will because it entails that humans cannot act otherwise than they do. The theory holds that the universe is utterly rational because complete knowledge of any given situation assures that unerring ...

In 1964 John Bell showed how the 1935 "thought experiments" of Einstein, Podolsky, and Rosen could be made into real experiments. He put limits on local "hidden variables" that might restore a deterministic physics in the form of what he called an "inequality," the violation of which would confirm standard quantum mechanics. Some thinkers, mostly philosophers of science rather than working ...

### **John Stewart Bell - The Information Philosopher**

"From conservation of energy to the principle of least action: A story line," Jozef Hanc and Edwin F. Taylor, American Journal of Physics, Vol. 72, No. 4, April 2004, pages 514-521. Conservation of energy is sufficient to predict motion in one dimension and for systems whose motion can be expressed as one independent coordinate.

### **Edwin F. Taylor - Principle of Least Action**

A Taylor column is a fluid dynamics phenomenon that occurs as a result of the Coriolis effect. It was named after Geoffrey Ingram Taylor. Rotating fluids that are perturbed by a solid body tend to form columns parallel to the axis of rotation called Taylor columns.
