Models of the Universe are described and classified into three major categories: Historic, Expanding, and Cellular. It is shown that all expanding universe models violate the cosmic edge and containment principle. The multi-millennium conflict between the two major world views --the changing dynamic universe and the unchanging stable universe-- is highlighted.

It has come to my attention that the word astasia refers to both. a. a colorless euglenoid that does not have plastids or a light-sensing spot and . b. a lack of motor coordination which leaves the patient unable to stand or walk unassisted. Where is the doggerel that plays off this double meaning? Where are the ironic little vignettes in which the hero (or heroine) is led charmingly astray ...
